CURE ORDER

1. Pull the tax and water balances on OPA 591057500 before any money moves. Two phone calls, 20 minutes, and they are the only claims that survive closing as a surprise.
2. Read every notice in the table. Each carries the exact action the inspector ordered, and each PDF is linked above for the file.
3. File the permits for the cited conditions in one package with the district office at 2401 Walnut St, Philadelphia PA 19103, 215-683-0575. Unpermitted cure work is the most common way a violation reopens.
4. Correct, then request reinspection at (215) 255-4040 and quote the case number. The case closes when the inspector signs off and the fee balance is paid.
5. Order the title search for private liens. The city record above is complete on code, and it is not a title search.

WHAT THIS DOES TO A FRIDAY CLOSE

A title company will not insure over 8 open violations and $3,000 in assessed fines without an escrow, a hold harmless, or a cure. On a $31,000 basis against $426,400 of assessed value, the fines are 9.7% of what was paid. Escrow the fine total plus permit fees and the file moves Friday. Skip it and the buyer signs into a case that is already 1290 days old.
